

*“Forces that endure beyond the gate of death are present in men’s actions here on earth, if he lives a life of goodness.*

*The sense of truth is a heritage from pre-earthly existence. The sense of beauty will create an image, at least, of pre-earthly connection with spirit.*

*And the impulse exists within us not to cut ourselves off from spirit, but rather to maintain the bond intact by the goodness we develop as inner power.*

*To be true is to be rightly united with our spiritual past. To sense beauty means that in the physical world we do not disown our connection with spirit.*

*To be good is to build a living seed for a spiritual world in the future..”*
